

## **INVERTED PYRAMID - EXERCISE No. 1**

**Take this information and make a short (4-5 graphs) inverted pyramid story with a news summary lede. Houston police are the source for all of the information; attribute where necessary.**

1. A north Houston man is shot to death during an apparent robbery at his home Tuesday.
2. Juan Luna died hours later at Memorial Hermann Hospital. He was shot once in the chest.
3. Luna, 28, is the shooting victim. Luna, a construction worker, is married with two young children. He was with family members in the driveway of his home in the 600 block of Coronado about 7 p.m.
4. A car pulls up and someone inside then pointed a gun at the family.
5. The gunman said, "This is a robbery," and then fired one shot. The car, a dark-colored two-door import, then sped away.
6. Anyone with information is asked to contact HPD homicide detectives at 713-308-3600 or Crime Stoppers at 713-222-TIPS.
7. Houston homicide detectives are investigating and request assistance from the public.
